

Why doesn't Party A use solar power generation

Congressional Republicans have backed Trump's pro-fossil fuel ...

Congressional Republicans have backed Trump's pro-fossil fuel agenda. But a group of 21 GOP lawmakers recently called for Congress to preserve tax credits that support the renewable ...

The transition to green energy involves a profound national shift: a move from power plants that mostly burned coal, then natural gas, to new wind and solar installations.

POLITICO's analysis of U.S. Energy Information Administration power price data contradicts arguments by President Donald Trump and his appointees that a heavy dependence on ...

The Trump administration is sabotaging clean energy while boosting fossil fuels with billions in subsidies. Here's how -- and why we need to fight back now.

Despite the growing partisan divide over solar power adoption in the United States Congress, public adoption of solar power is occurring across the political spectrum. In addition, solar ...

The country has significantly reduced its reliance on solar energy due to several critical factors: 1. High initial investment costs, 2. Limited geographical suitability, 3. Technological ...

Support for wind power and solar energy among Republicans has dropped significantly since 2020, as older Republicans in particular soured on renewable energy sources, according to a ...

There is no agreement on why clean energy has become so politically divisive. One person told me that if Al Gore had been a Republican, Democrats would now be anti-clean-energy.

Neither party has a history of consistent energy policies, but today's Republican Party is taking a clear stand against promising efforts to foster wind and solar power as part of an overall U.S. ...

Republicans are against clean renewable energy due to concerns that a renewable energy transition would increase prices and hurt the reliability of the electrical grid. They argue that ...
