

However, some states still make installing solar panels functionally impossible by creating laws with "reasonable restrictions," such as increased taxing, energy caps, or even billing ...

As wind turbines get more efficient and solar panels more affordable, wind and solar plants have grown rapidly. Efforts to block them have grown rapidly, too, especially since 2021.

Signed into law by US President Joe Biden in December 2021, the UFLPA places a ban on all solar product imports from China's Xinjiang region, unless products are demonstrated to not be...

As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach 100% clean energy by 2035, a goal that depends on building large-scale solar and wind ...

"We are no longer allowing businesses to use your taxpayer dollars to fund solar projects on prime American farmland, and we will no longer allow solar panels manufactured by foreign ...

"We are no longer allowing businesses to use your taxpayer dollars to fund solar projects on prime American farmland, and we will no longer allow ...

It is uncertain to what extent the existing trade restrictions and tariffs have affected the expansion of domestic solar PV manufacturing or the rate of solar PV deployment; a number of factors may be ...

Chinese officials and researchers have described allegations of forced labour as a ploy by the US to undermine the international competitiveness of the country's solar industry.

On June 24, 2021, the Biden administration took several steps to respond to allegations of forced labor and human rights abuses against Uyghurs and other minority groups in China. These ...

But now solar manufacturers fear that the Republican policy bill, which is still working its way through Congress after the Senate passed it on Tuesday, would end the nascent revival and ...

The White House on Thursday said it would protect domestic solar factories from Chinese competition by scrapping a tariff exemption for imported double-sided panels and making it ...
